Village Digital Hackathon

**Digital hackathon_User
journey research**

10-11 October 2026

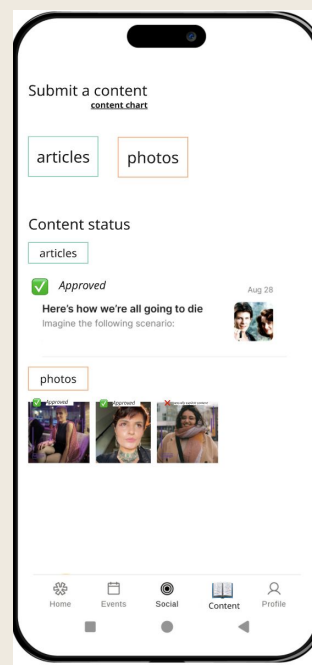

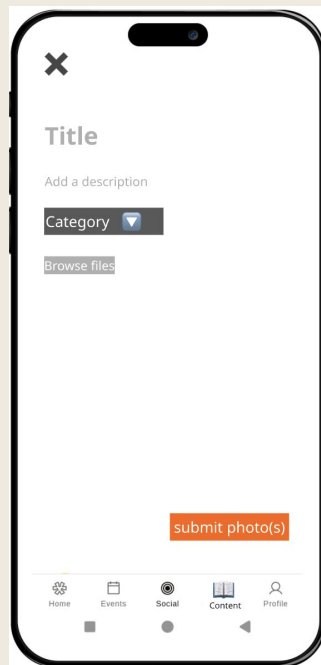

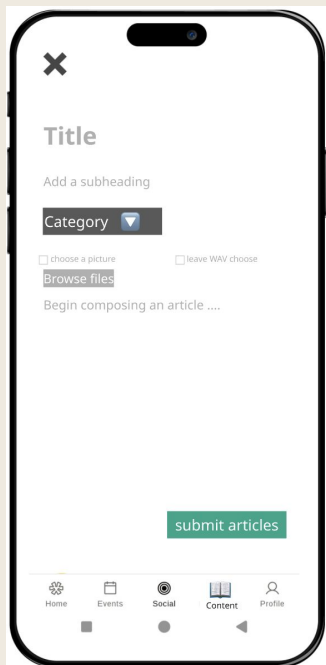

we are village

User journey research

Community creating their own content

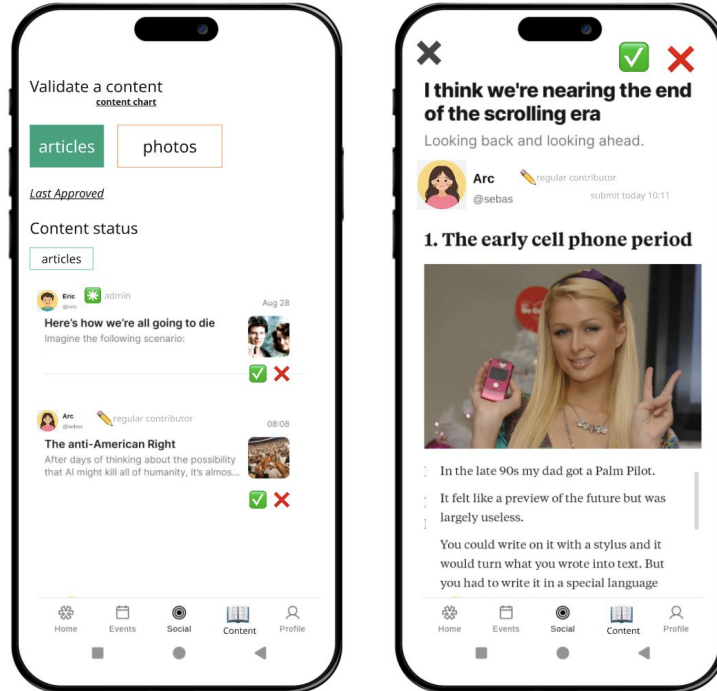

App user view: Submit content - Articles / Photos

User journey research

Keep a safe space with a clear review workflow

Moderators user view

Community Content will need validation by a moderation team

Regular contributor could become moderator with team and/or VIP contributor without needs of validation

Each piece of content can be flagged by users

User journey research

Keep a safe space with a clear review workflow

Content validation workflow

Guidance

A short prompt on what makes strong content here

Submit

Articles & photos only at launch — lighter formats we can review quickly and well.

Review

Our moderation team checks it against a shared content standard.

Publish & credit

Approved content goes live and counts toward the contributor's track record.

Content standard (examples)

✗ Hate speech / harassment

✗ Sexual content

✗ Spam / advertising

✓ Cultural proposition

✓ Personal experience

✓ Fictional piece

Member reporting

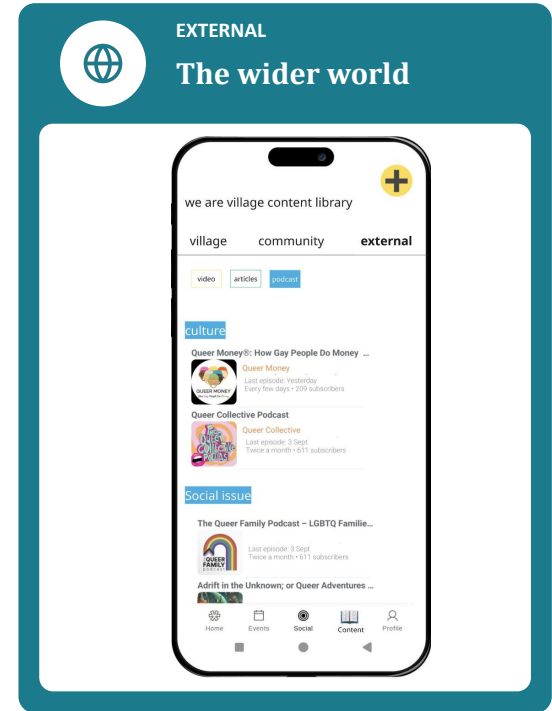

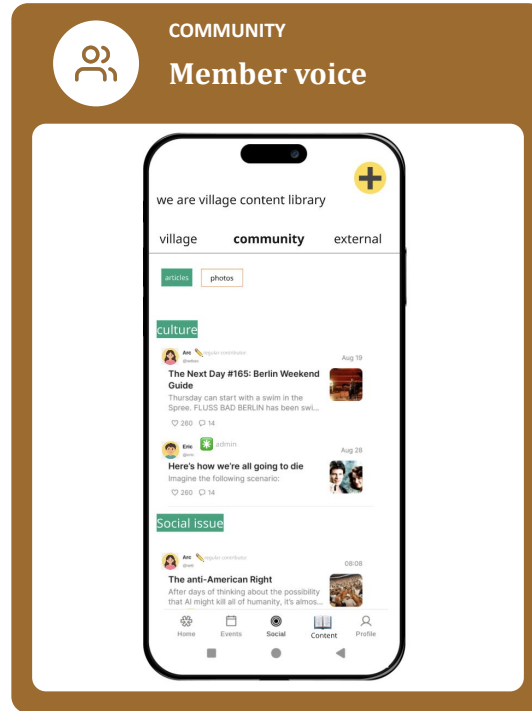

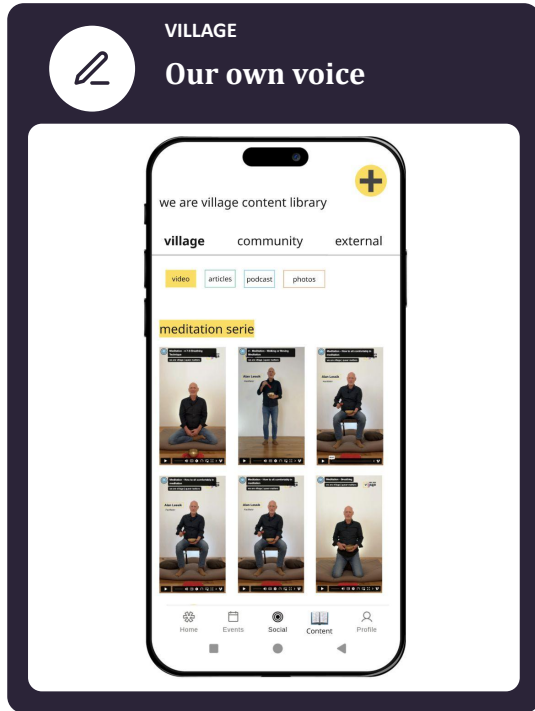

Any content can be flagged by members and routed straight to the moderation queue.

(bringing the content in review status would mean the content is no longer available on the library)

User journey research

Three sources, one library

Member recognition

App user view: Member pages

Member profile

Following member: See new content from members whose work you enjoy, as soon as it's live.
List of content contribution

Member status

Recognition on different contributor status

Eg: From **simple Contributor** to **Trusted Contributor** (lighter-touch review), to **Moderator** (reviewing others' work).
